

# WasteFinder

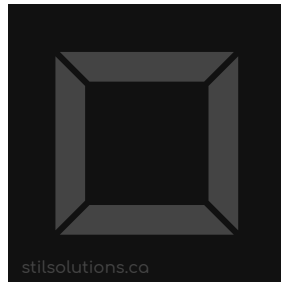

Accessible waste disposal.

For more info,  
scan here

WasteFinder is a two-part system that provides both tactile and visual information to assist individuals with disabilities to independently and effectively dispose of their waste in public spaces.

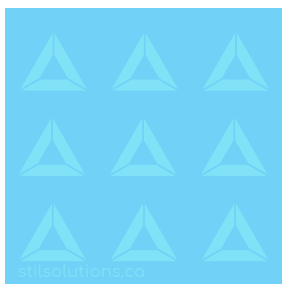

Recycling Indicator

Garbage Indicator

Organics Indicator

The **Vicinity** Indicator surrounds the surface area of the waste disposal unit. It lets individuals know when they're within a certain distance of the bins. It can be felt distinctly underfoot even when using mobility devices.
